You may advise Jackson

~~Advise Jackson no RPT~~ no objection his Committee proposing NATO

Defense Missile Training Center. Agree you should suggest proposal omit idea of

expanding center to include scientific research relevant to missile technology.

This latter area can best be handled in separate context.

You should of course make clear that our expression of no RPT no objection to his putting proposal forward does not RPT not constitute U.S. Government commitment to take any specific action. This proposal would be on same footing as other resolutions and recommendations stemming from Conference, i.e., they would have be examined by Govts in light all relevant considerations.
